Previous Participating Organizations in HERA

Recognising ESG leaders and promoting industry best practices

The Hong Kong ESG Reporting Awards (HERA) is an annual event to recognise listed companies for outstanding ESG reporting and business practices. The awards not only celebrate the winners and the cause, but also bolster the efforts companies invest in to pursue improved ESG practices.

Every year the winning organisations set new standards for quality ESG disclosure, raising the bar for the overall standards of disclosure levels in Hong Kong and China. Past winners of HERA awards include AAC Technologies, Chow Tai Fook, The Airport Authority, Bank of East Asia, Cathay Pacific Catering, COSCO Shipping, China Overseas Property, and others.

HERA Forum

Considering the unprecedented events in 2020, HERA aims not only to recognise companies for outstanding reporting on ESG, but also to build and strengthen the ESG coterie in Hong Kong, China, and Macau. We want to highlight growing interest in ESG in the midst of the ongoing turbulence and how companies can tap into new opportunities, address challenges and adapt their business models to ensure long-term sustainability.

Networking opportunities with the right audience

Organisations participating in HERA are mainly companies striving for ongoing improvements in ESG reporting and performance. The half day event is designed specifically to encourage formulation of valuable relationships through networking. HERA Forum offers a cost effective way for companies and executives to meet others thinking and working on similar lines and generate leads within one half of a day!

High brand visibility

The event facilitates high brand visibility, ensuring your key brand messages get across to delegates. It is an opportunity to reach out to delegates through ensuring high brand visibility and showcasing your products through exhibition stands.

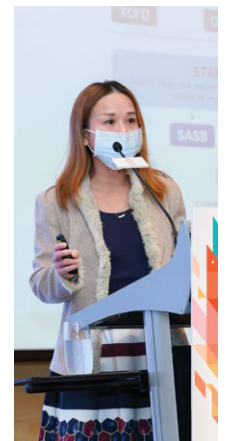

Influence prevailing market thinking

HERA Forum not only enables you to find out what your customer wants, but also ensure your organisation is a part of crucial discussions with industry's senior figures who shape policy measures and decide investment priorities.

Position yourself as thought leader

HERA Forum offers speaking opportunities to showcase your ESG solutions in front of representatives from listed companies who look for ongoing improvement and learning from your expertise.
